From The Author's Desk

The Published book for RRB for recruitment of Assistant Loco Pilot (ALP) has been designed in such a way as to cater to the needs of Psychological/Aptitude aspects of the test. The book contains questions according to the latest syllabus and pattern of the examination. While writing the book, I have kept special attention towards the fact that aspirants should be taught the concept lucidly so that they can apply the tricks while solving questions of PSYCHOLOGICAL/ APTITUDE. The Tricks and Concepts in the book will help the aspirants to solve the questions entirely in less than half the time than the stipulated time.

The 20 years of rich experience which I have achieved at PATLIPUTRA COACHING in teaching PSYCHOLOGICAL/ APTITUDE has immensely helped me in maintaining the best standard and quality of the book.

Furthermore, for these long years the questions given by me to the aspirants have exactly matched with the questions which appeared in the examinations. This very fact has helped the aspirants to achieve unprecedented success in their examinations.

In this book I have extensively analyzed each test in details. Additionally, I have also included easy tricks which will help the aspirants to solve the questions in an easy, lucid and scientific manner.

Psychological/Aptitude Test

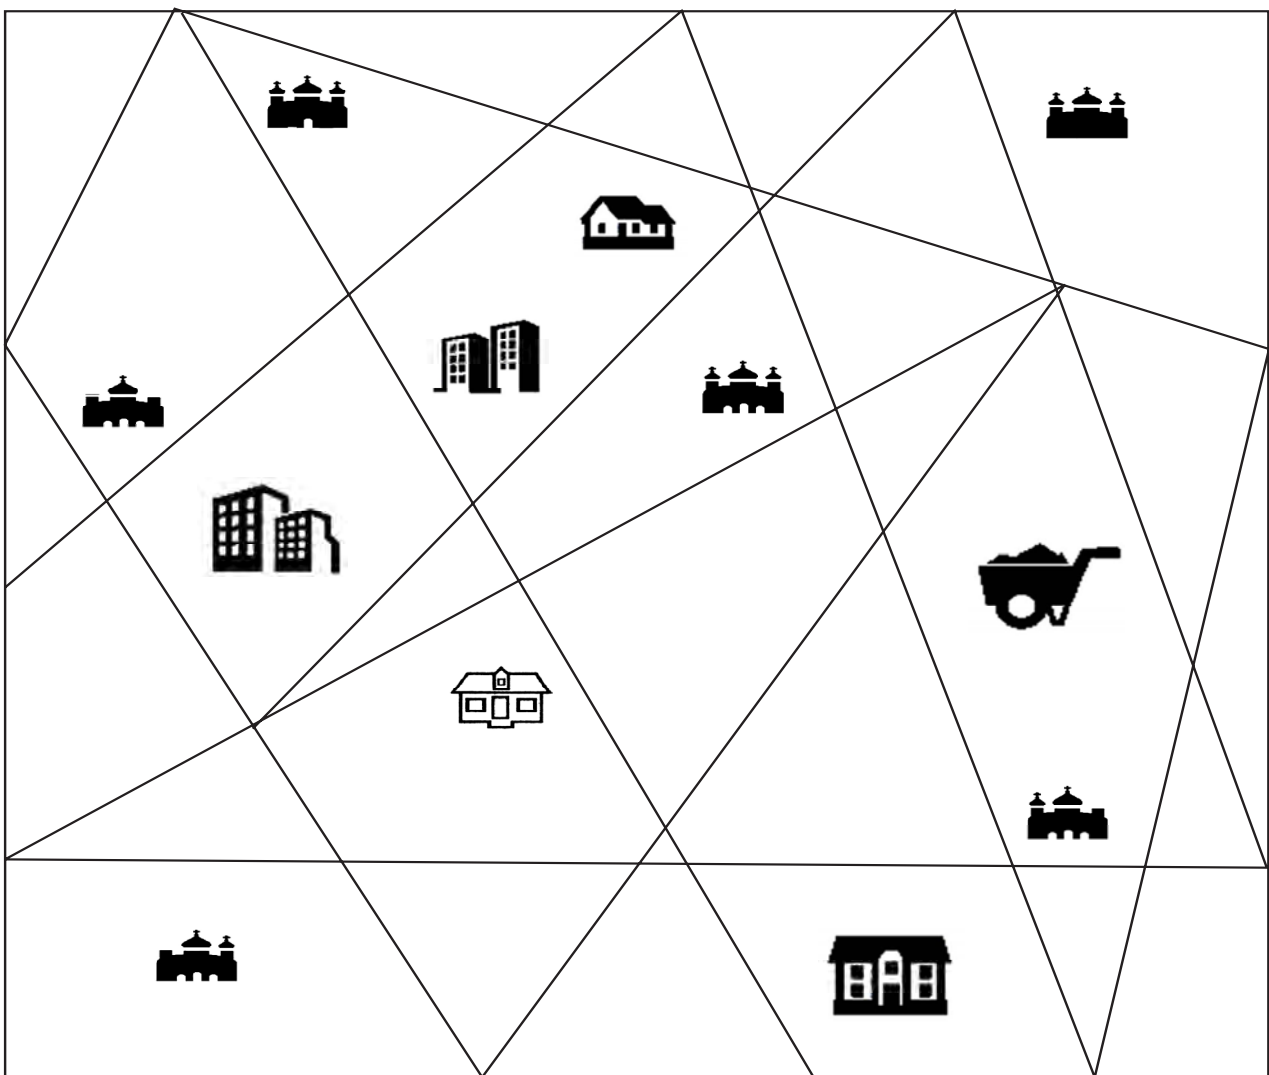

TEST-1 (MEMORY TEST - A)

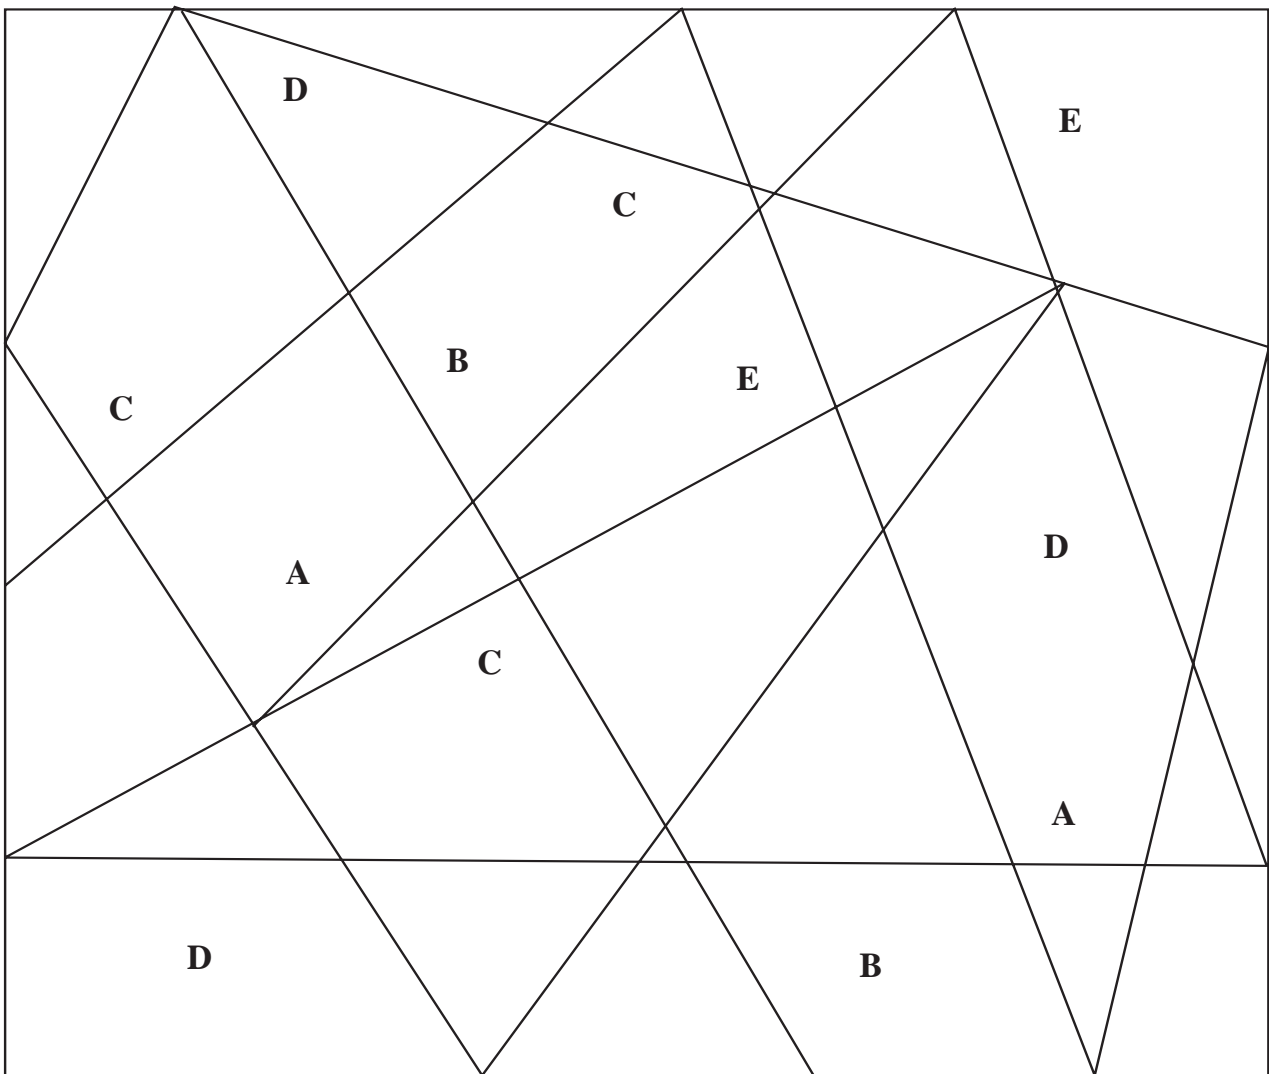

Figure Position Test

Introduction—Figure Position Memory Test is an important lesson of Psychological/Aptitude Test held by Railway Recruitment Board. In this test, total of 24 questions are asked in 2 sets. Each set consists of 12 questions and 4 minutes are allotted to solve them which includes the time of colouring answers in Answer Sheet too. Thus, total of 8 minutes are allotted for 2 sets.

Every set consists of two pages. The first page is Memory Page which has 12 pictures/shapes placed on different positions. Examinee has to memorise them (pictures/shapes) with their location in the scheduled time of two minutes. In the next two minutes, Examinee has to find out the locations of the pictures/shapes based on memory. The letter printed on the place of the picture/shape is your answer to be coloured in the Answer Sheet. Thus in this test (2 Sets of $12 + 12 = 24$ questions), total allotted time for answering the questions are 8 minutes ($4 + 4 = 8$ minutes for two sets i.e. one complete test). The allotted time of 8 minutes is inclusive of the time consumed in colouring the answers, i.e. no extra time is allotted for colouring the answers in the Answer Sheet.
